Subject: RE: Peter Wright meeting - Need Briefing Materials by tomorrow at Noon

Thanks John – HP is off the table for now. We will need very general talking point for Mike, in case it does come up – Enrique has a good idea of what he would like.

John, Sounds like HP may be off the table. If he wants a few talking points just in case, I pulled and adjusted a few bullets from the attached HP Budget Fact Sheet that was submitted to HQ last week.
Copying ORC in case they want to adjust.

John

Hunters Point Superfund Site:

- The Navy is the lead agency responsible for investigation and cleanup. EPA and the State of California oversee and enforce Navy compliance with the Superfund law and State and local requirements to ensure that the cleanup protects human health and the environment.
- Redevelopment has been delayed due to the widespread falsification of radiation sampling data by Navy contractor Tetra Tech EC, Inc. The Navy found the initial signs of falsification in 2012 and confirmed it in 2013. In 2016, the EPA and the State of California stopped any further land transfers to the City and County of San Francisco. In January 2019, the U.S. Department of Justice filed a \$800 million-dollar civil complaint against Tetra Tech EC Inc. on behalf of the Navy.
- The Navy publicly committed to resample all locations where Tetra Tech EC, Inc., did radiological work. EPA, Navy, and State senior managers are meeting the week of April 15 to hopefully finalize a path forward to begin resampling and, if necessary, more cleanup in Parcel G, a key priority for San Francisco.

Importance: High

Hi Folks

Enrique will need briefing materials by tomorrow at noon, in order to get the materials to the OLEM Immediate Office by COB tomorrow. Our RA will be meeting with OLEM senior leadership during his DC trip next week.

See below for lead assignments– let me know if you have questions, please loop in ORC on HP and M52/WVB

Thanks!

John

Subject: RE: Peter Wright meeting

After conferring with John Lyons, I suggested to Peter Wright's staff that we get them updated topic notes by Monday noon. They pushed back and said Peter would appreciate them by close of business tomorrow. It seems he may want to invite others to the meeting based on that review.

I hope that is okay with your team.

Thanks Chris

Let us take the lead on the detail. I want to make sure we don't get ahead of our skis on Motorola and hunters point with regard to hqs. We definitely want to use the meeting to focus on the FTE issue

Enrique and Laura,

I am negotiating with Peter Wright's staff about a meeting for Mike next week. When they asked, I said the following would probably come up:

Motorola Superfund site in Phoenix and the potential listing of West Van Buren – Will and Lily
Hunters Point Naval Station developments – Lily and John C
Drone usage in the western Pacific -Pete and Dan
RPM/OSC FTE -Dan

They would like more detail however. Shall I take a shot at that detail and run it past you, or would you like to shape it more directly? I don't mind the former, but the latter choice gives you the best chance of your preferred outcomes.
